

## Results Race 10 & 11 - 24/11/2018

A starboard course and changeable winds from the south swinging to the south west very variable from 4 to 8 knots in the first race to 4 to 6 knots in the second and still variable. A trying afternoon for all classes, a good turnout from the 11 Jubilees and 9 Lasers and 3 misc and also a pacer with three of our young junior trying their luck on a one lapper and also two young juniors from Stawel testing their skills with lasers, well done to our juniors for participating in the racing .
